

# HARRY'S

## APERITIVO

*The story says that in 1786, a well-known herbalist sent a crate of the 'elixir of life' to the Duke of Savoy to impress him with a drink able to stimulate the appetite. With the blessing of a variety of aromatic alpine botanicals and the medicinal properties of the herbs used, a few generations later Piazza Castello saw the first home for the Italians' favourite moment, l'Aperitivo.*
